Personal Statement

Passionate and Efficient. Graduate of Bachelor of Science in Computer Science Graduated with Latin Honors (Magna Cum Laude). Possess substantial experience in Cloud Computing, Threat Detection for API systems and Management. Fluent English communication skills. Sociable. Able to lead groups of people to achieve success.

I am a software developer with over 7 years of experience. I have the ability to handle highly stressed situations and unexpected errors in an efficient manner. As a developer, we aim to determine operational feasibility by evaluating analysis, problem definition, requirements, solution development, and propose solutions. I possess self-development skills to keep up to date with fast-changing trends as I would need to have a knowledge and understanding of the latest trends and their role in a commercial environment to develop an organized and a program a code that can be used to solve a real life problem.
